

ABOUT THE PROGRAM

Marinos Italian Ices High Achievers Program motivates children to achieve good grades by rewarding their accomplishments with praise, recognition and yummy Italian ices, flavor of their choice! We at Marinos Italian Ices believe that children are our future and their hard efforts should never go by without proper recognition. The program is simple for teachers to use, flexible because goals match ability, and fun because achieving a goal is a great reason to celebrate.

Simple

Marinos Italian Ices High Achievers Program runs every school year from September to June. The teacher sets a goal for each child in the class. A tracking chart and reproducible materials are included to make it that much easier. As soon as a child meets the monthly goal, the teacher gives him or her a Marinos Italian Ices High Achievers Award Certificate. The children then takes the certificate to our factory store or one of four convenient Marina Ice Cream Co. locations to redeem it for a FREE box of Marinos Italian Ices!

Flexible

Marinos Italian Ices High Achievers Program goals are based on individual ability and/or a specific goal the teacher is trying to achieve with his or her students at the time. Grade point average, number of books read, number of math problems completed, attendance— they all work. We leave the goal setting up to the teacher because we believe that the teacher knows their students best and knows what will work in their individual classroom. Marinos Italian Ices High Achievers Program can also be used with the reading curriculum or intervention programs; the possibilities are endless!

OUR PARTNERSHIP WITH MARINA ICE CREAM CO.

Marina Ice Cream Co. is the largest distributor on the east coast! They service many supermarkets and deli's in the tri-state area and beyond with the finest ice cream and ice products on the market. However, they are not limited to just ice cream; they offer a wide variety of Italian ices, novelty Popsicle items, health conscious items, etc. Each of their convenient NY locations offers 1000s of items at wholesale prices. They are open to the public daily Monday to Friday 7:00AM-5:00PM as well as Saturdays (during Spring & Summer) from 7:00AM-2:00PM.

Marina Ice Cream was founded almost 30 years ago by two brothers who had migrated from their homeland of Italy with a dream. They came to this country speaking very little English but with a willingness to learn. They worked night and day, often 7 days a week and even attended night school to help them assimilate better; until they were ultimately ready to open their first distributing warehouse in the heart of Queens. The warehouse started small but over the years has grown exponentially.

Today the company is still family own and operated, just like Marinos Italian Ices, with the same values it was founded with.

Marinos Italian Ices and Marina Ice Cream Co. realize that life today for many children is not what it should be and many children unfortunately have circumstances outside of their control that make attending school and achieving good grades more difficult than ever. With that in mind, Marinos Italian Ices has partnered up with Marina Ice Cream Co. to bring you the Marinos Italian Ices' High Achievers Program to ensure that no child ever goes unrecognized for their achievements!
